

WHAT COMPUTER SOFTWARE OR HARDWARE IS NEEDED TO USE THE PARENT PORTAL?

Computer: Any computer capable of running Firefox or Internet Explorer 6.0 or higher, Macintosh or Windows. (Note: If you are using a MAC, you should use Firefox or Camino.)

Software: Internet Explorer 6.0 or higher (Free download from <http://www.microsoft.com>) or Firefox (Free download from <http://www.mozilla.com/en-US/firefox/>)

Internet Connection: 56K modem speed or higher recommended. Note: If you are using AOL dialup, it doesn't use Internet Explorer as the browser. You must open up Internet Explorer to access the Portal.

Monitor: A monitor with a resolution of least 800X600 resolution is recommended.

- **Windows XP or lower:** Right click on your desktop and left click on Properties. Then click on the Settings tab to set your resolution.
- **Windows Vista:** Right click on your desktop and left click on Personalize. Then click select Display Settings to set your resolution

Acrobat Reader: To access the Reports in the Portal, you will need Acrobat 7 or higher. It is a free download at: <http://www.adobe.com/products/acrobat/readstep2.html>

Turn Off ALL Popup Blockers: Either turn off your pop up blockers or accept the Portal Site to your pop-up blocker. (Review your [yahoo, google, etc] pop-up blocker toolbars to find the appropriate options.)
